

Identity theft protection and a whole lot more.

Norton LifeLock Benefit Plans provide comprehensive, all-in-one protection against cyberthreats so employees can keep what's theirs, theirs.

Identity Theft Protection

Our proprietary technology monitors[†] for fraudulent use of employees' Social Security number, name, address and date of birth in applications for credit and services. The patented system sends alerts by text, phone[‡], email or mobile app when a potential threat is detected.

Parental Control

Employees can take action to monitor their child's online activity and identify potential dangers to help keep children safe when exploring online. Easily set screen time limits, block unsuitable sites, and monitor search terms and activity history.^{***∇}

Device Security

Multi-layered, advanced security helps protect devices against existing and emerging malware threats, including ransomware, and helps protect private and financial information when employees go online.^{**}

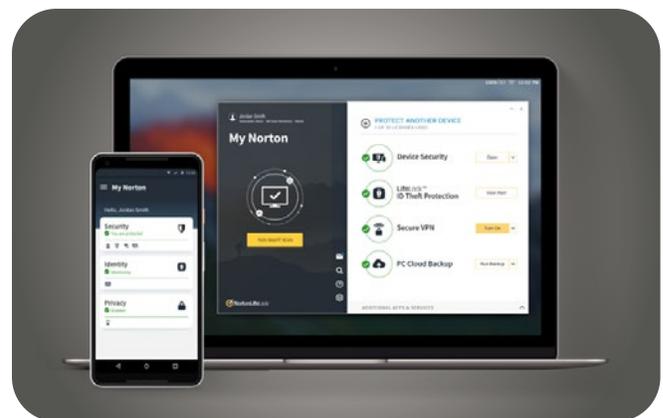

Online Privacy

Protect devices on vulnerable connections through bank-grade encryption to keep information private. We also scan common public people-search websites for employees' info and help them easily opt-out.^{**}

118 Million

Nearly 118 million people were victims of cybercrime in 2021.¹

Screens modified for demonstration purposes. Subject to change.

No one can prevent all identity theft or all cybercrime.

[†] We do not monitor all transactions at all businesses.

^{**} These features are not enabled upon enrollment. Member must take action to activate this protection.

[∇] Norton Family and Norton Parental Control can only be installed and used on a child's Windows PC, iOS and Android devices but not all features are available on all platforms. Parents can monitor and manage their child's activities from any device – Windows PC, Mac, iOS and Android – via our mobile apps, or by signing into their account at my.Norton.com and selecting Parental Control via any browser.

[‡] Requires your device to have an Internet/data plan and be turned on.

¹ Based on an online survey of 1,000 adults in the US conducted by The Harris Poll on behalf of NortonLifeLock, November - December 2021.

Protection features to help employees feel safer in their digital lives.

LifeLock Identity Alert™ System

Patented system sends alerts[†] when fraudulent use of an employee's Social Security number, name, address, or date of birth for credit and service applications are detected.

Credit Monitoring

Monitor and alerts when key changes to an employee's credit file is detected at one or three of the leading credit bureaus, depending on the plan.¹

Investment & 401(k) Activity Alerts

Alerts to potentially fraudulent cash withdrawals and balance transfers.[†]

On-Demand Credit Reports & Scores

Convenient online access of credit reports and credit scores from the primary bureaus.^{1**}

Dark Web Monitoring

Identity thieves can buy or sell personal information on hard-to-find dark web sites and forums. We can monitor personal information and notify the employee when their information is found.^{**}

Social Media Monitoring

We monitor linked accounts on the most popular social media sites and send notifications when risky links are detected or when an account may be compromised.*

Password Manager

Easily create, store, and manage passwords, credit card information and other credentials online – safely and securely.**

Secure VPN

Secure private information like passwords, bank details and credit card numbers when using public WiFi on your PC, Mac, or mobile device. Bank-grade encryption protects personal information sent over public WiFi or unsecured networks.**

Privacy Monitor

Scans common public people-search websites for personal information and help employees opt-out.

Secure Cloud Backup

Store and protect important files and documents as a preventative measure to data loss due to hard drive failures, stolen devices and even ransomware.^{2**}

No one can prevent all identity theft or all cybercrime.

[†] We do not monitor all transactions at all businesses.

* Does not include monitoring of chats or direct messages.

** These features are not enabled upon enrollment. Member must take action to activate this protection.

▽ Norton Family and Norton Parental Control can only be installed and used on a child's Windows PC, iOS and Android devices but not all features are available on all platforms. Parents can monitor and manage their child's activities from any device – Windows PC, Mac, iOS and Android – via our mobile apps, or by signing into their account at my.Norton.com and selecting Parental Control via any browser.

¹ If your plan includes credit reports, scores, and/or credit monitoring features ("Credit Features"), two requirements must be met to receive said features: (i) your identity must be successfully verified with Equifax; and (ii) Equifax must be able to locate your credit file and it must contain sufficient credit history information. IF EITHER OF THE FOREGOING REQUIREMENTS ARE NOT MET YOU WILL NOT RECEIVE CREDIT FEATURES FROM ANY BUREAU. If your plan also includes Credit Features from Experian and/or TransUnion, the above verification process must also be successfully completed with Experian and/or TransUnion, as applicable. If verification is successfully completed with Equifax, but not with Experian and/or TransUnion, as applicable, you will not receive Credit Features from such bureau(s) until the verification process is successfully completed and until then you will only receive Credit Features from Equifax. Any credit monitoring from Experian and TransUnion will take several days to begin after your successful plan enrollment.

² Norton Cloud Backup, Norton SafeCam, Norton Family, and Norton Parental Control features are not supported on Mac, Windows 10 in S mode, and Windows running on ARM processor). Not all products, services and features are available on all devices or operating systems. System requirement information on Norton.com.
